Experience

PECTO DIGITAL

Frontend Developer

2021 - 2022

Developed and maintained responsive web applications using HTML5, CSS3, and JavaScript framework like jQuery, ensuring cross-browser compatibility and optimal performance.

Collaborated with UI/UX designers and backend developers to translate wireframes and mockups into fully functional and visually appealing user interfaces, adhering to design principles and best practices.

Implemented frontend solutions for dynamic data visualization, integrating APIs and handling asynchronous data requests to enhance user interaction and experience.

Conducted code reviews, identified areas for improvement, and implemented enhancements to optimize codebase efficiency, maintainability, and scalability.

Stayed abreast of emerging frontend technologies, trends, and industry standards, proactively researching and proposing innovative solutions to enhance product features and functionality.

PECTO DIGITAL

WordPress Developer

2021 - 2022

Designed and developed custom WordPress themes and plugins, leveraging PHP, HTML, CSS, and JavaScript, to meet clients' specific requirements and enhance website functionality.

Conducted thorough WordPress site audits, identifying and resolving performance issues, security vulnerabilities, and compatibility concerns, ensuring optimal website performance and user experience.

Provided technical support and troubleshooting assistance to clients, addressing inquiries related to WordPress functionality, theme customization, plugin integration, and content management.

Collaborated with project managers and stakeholders to gather requirements, define project scopes, and deliver WordPress solutions that align with clients' goals and objectives, within agreed-upon timelines and budgets.

Stayed updated on WordPress core updates, plugin developments, and security best practices, implementing necessary patches and updates to safeguard websites against potential threats and vulnerabilities.

Experience

FITSCO **Junior Backend Developer** **2022 - 2023**

Developed and maintained scalable backend solutions using programming languages such as PHP, along with frameworks like Laravel to support various web applications and services.

Implemented RESTful APIs and web services to facilitate seamless communication between frontend interfaces and backend systems, enabling smooth data exchange and interaction.

Integrated third-party services and APIs (e.g., payment gateways, authentication providers, cloud services) into backend systems, ensuring seamless functionality and interoperability with external platforms.

Collaborated with cross-functional teams including frontend developers, UI/UX designers, and quality assurance engineers, to define technical requirements, troubleshoot issues, and deliver robust backend solutions that meet business objectives and user needs.

SoftCrust Digital Marking Agency **Web Developer (Custom and wordpress)** **2024 - 2025**

As a Web Developer (Custom & WordPress) at SoftCrust Digital Marketing Agency (2024 – 2025), I was responsible for designing, developing, and maintaining custom websites and WordPress solutions tailored to client needs.

I worked on creating responsive, SEO-friendly, and high-performance websites, integrating plugins, themes, and custom functionalities to enhance user experience.

Additionally, I collaborated closely with designers and marketers to ensure seamless UI/UX, while optimizing websites for speed, security, and mobile compatibility. My role involved troubleshooting technical issues, implementing best development practices, and staying updated with the latest web technologies.
